# Jawad Krayyem.

## Software Developer · AI & Web

krayyemjawad@gmail.com github.com/jawad-krayyem jawad-krayyem.github.io

### PROFILE

Developer building local AI tools and web interfaces. Project work spans document retrieval, image generation, browser audio, and structured extraction.

### TECHNICAL SKILLS

**Interfaces**
React · Next.js · TypeScript · Responsive CSS

**Backend & data**
Python · FastAPI · Flask · Pydantic

**Applied AI**
Ollama · Retrieval systems · LangChain · Diffusers

**Systems & tooling**
Qdrant · Chroma · WebSocket · Git & GitHub

### SELECTED PROJECTS

#### InsightPilot

Documents

A local document assistant combining hybrid retrieval, reranking, and streamed answers with source references.

`Python · React · Ollama · Qdrant`
`github.com/jawad-krayyem/insightpilot-RAG`

#### SDXL Studio

Image generation

One workspace for text-to-image, image-to-image, inpainting, ControlNet, and LoRA experiments.

`Python · Flask · React · Diffusers`
`github.com/jawad-krayyem/SDXL`

#### The Interview Room

Voice & audio

A voice-to-voice interviewer connecting browser audio to local speech recognition, an LLM, and speech synthesis.

`Python · FastAPI · React · WebSocket`
`github.com/jawad-krayyem/ai-interview`

#### Datheon AI Workbench

Documents

Validated JSON extraction, PDF questions with page citations, and a streaming Streamlit workbench.

`Python · LangChain · Pydantic · Streamlit`
`github.com/jawad-krayyem/Datheon_Generative_AI_Internship`
